YACHTS HIGH LIFE ON THE HIGH SEAS

## MAKING WAVES THIS MONTH

### GO WITH THE TIDE

Set to turn heads at sea in June is Dominator Yacht's *Zalanka*. This custom-crafted motor yacht from the Ilumen 28M range literally shines in the looks department, with a hull painted in metallic bronze instead of trite chalk-white. Step inside, and savour its unique layout. A four-cabin lower deck incorporates a private office with Pullman bed and en-suite bathroom. Furnished to a tee with sofas and beds wrapped in exquisite Hermès and Dedar fabrics, the environs exude smart elegance with tones of warm ebony and light oak. Beautiful by design and sophisticated in essence, the yacht is a masterpiece.

### BIG BOATS

Superyachts, all over 24m in length, at the Singapore Yacht Show, April 12-15

### ROYAL GUSH

Princess Yachts' Princess 30M may be the smallest of its M series, but she's great as your first megayacht.

### HAVE YOU MET METRI?

The Azimut Grande 27 Metri debuts in Asia as a plus-sized concept, but a body of mostly carbon fibre keeps her weight in check for better performance.

### SAN-LO AND BEHOLD

Although the new Sanlorenzo SL78 is an entry-level model of the Italian brand's planning range, she is still super, and makes the 24m-in-length mark.
